

KEEP THE FLIES AND MOSQUITOES OUT!

The fly has no day of rest. He's busy all the time, and his mission in life is to spread disease germs. One comes in the window and stops for a moment on the sugar bowl, cream pitcher or the baby's nursing bottle. Do you know where his sticky feet last rested? Think it over and if you haven't already made arrangements to screen your house phone 267 and we will send a man around who will be glad to make an estimate for you.

The weather is getting warmer; flies are breeding faster; trouble is ahead if you don't keep them out.

ADOPT RESOLUTIONS EXPRESS APPROVAL

OF WORK DONE BY CITY OF ANDERSON ON ROAD ENTRANCE

GOOD ROADS CLUB

Williamston Highway Club Held Important Meeting on Friday Night.

At the meeting of the Williamston Highway Good Roads club held at Hammond's school house on Friday night, resolutions were adopted expressing approval of the city's action in making a graded entrance into the city by building a culvert at Dickens avenue and by grading hills and making fills.

The following is a copy of the resolution:

At the regular meeting of the Williamston Highway Good Roads club, which was held at the Hammond school last night, and which was largely attended, resolutions were unanimously adopted expressing their appreciation of the work of the Anderson city council in providing "a well graded entrance into the city of Anderson on the Williamston highway by building a culvert on Dickens street and grading down the hills and building fills."

The resolutions read as follows: Whereas, Mayor J. H. Godfrey of the city of Anderson and city Engineer W. A. Sanders were invited and were present at the organization meeting of this club and at said meeting agreed to cooperate with the people in the country and the members of this club in providing for a well graded entrance into the city of Anderson on the Williamston highway by building a culvert on Dickens street and grading down the hills and building fills.

And, Whereas, on the following day the city council met in special session about another matter and at this meeting the culvert and improvements were authorized and the work actually commenced two days later and promptly completed.

And, Whereas, We appreciate the spirit of the mayor and aldermen which led them to agree to make these improvements for our benefit and the benefit of the people generally traveling this highway and also the remarkable promptness of the mayor and aldermen in authorizing and making these improvements.

Now, Therefore, Be it resolved, First, That our most hearty thanks be extended to the mayor and aldermen of the city of Anderson and to City Engineer W. A. Sanders for the prompt authorization and completion of these improvements which will be of great benefit to ourselves and others from the country and elsewhere using the Williamston highway into Anderson.

Second, That we particularly appreciate this matter, as evidence of the desire of the city authorities to co-operate with the people of the country in obtaining better highways, and in this connection we also express our appreciation of the splendid paved streets already put down in the city of Anderson by the Godfrey administration and contemplated for the future.

Third, That a copy of these resolutions be sent to the city council of Anderson and to the newspapers of Anderson.

(Signed as follows:)

Arthur Rhody, President.

E. C. Keys, Secretary.

Mr. S. M. Byars, county demonstration agent, addressed the meeting on the subject of beautifying the highway and the upkeep of roads.

The club received prices on sunflower seed. They purchased 100 pounds, equivalent to three bushels, and one bushel will plant five miles of road on both sides. Rows of sunflowers will be planted on both sides of the highway from Williamston to Anderson.

The club adopted a resolution urging Supervisor J. Mack King to build a fill approaching Big Beaverdam creek on the Williamston highway. They want a fill something like the one at Cox's creek and want the bridge built higher.

The club meeting was well attended and much enthusiasm was shown.

MRS. LEWIS IMPROVING

Friends of Iva Lady Will Be Pleased Over News From Her Bedside. Friends of Mrs. R. W. Lewis throughout the city and county will be pleased to learn that she is steadily improving. Mrs. Lewis was taken to the county hospital several days ago for a serious operation. She has gained steadily since going there and her recovery is expected.

Saps in Panama.

(By Associated Press.) Panama, April 1.—It is learned that the number of Japanese settlers on Panama territory has been made the subject of a report by United States consul general, Alban G. Sawyer to the state department at Washington. The report was not made public here, but it is said that within the past year more than a hundred Japanese have come to Panama and entered various occupations, especially that of fishermen.

TRANSFERS OF REAL ESTATE IN COUNTY

FOR MONTH OF MARCH AS RECORDED IN AUDITOR'S OFFICE

WERE MANY DEALS

However, Not as Many as in Two Preceding Months—Attention is Called.

Following is the list of real estate transfers in Anderson county during the month of March as recorded in the office of the county auditor. Mr. Winston Smith, the auditor says that he wishes to let the public know that his office is the proper place for the registration of these transfers. There seems to be some confusion in getting to the proper office.
